Disco revival at Guild Hall

DISCO fans are in for an exciting treat now that local Zumba Instructor Maura Firth has installed a brand new glitter ball in Cheadle Guild Hall.

Maura, who hosts weekly fitness classes at the popular local venue, uses the glitter ball as part of her routine and decided it was time to give things an update.

She explained: "My dad used to be the caretaker at the hall and it has always been very close to my heart.

"The old glitter ball was looking a bit tired and shabby and as I use it a lot as part of my Zumba class I thought it would be nice to purchase a new one."

The Cheadle Guild Hall was built between 1928 and 1930 and this is the first time the glitter ball has ever been replaced.

The original one was made of glass and metal and the new one made of polystyrene.

Glittering improvement:

Maura is pictured with the shinney new glitter ball yesterday, Tuesday.
